

The **Pittsburgh & Lake Erie Railroad Historical Society** proudly announces the first "Project Car" for model railroaders. Based on the 50' boxcars acquired by the P&LE from 1961 to 1964, these represent cars that had heavy overhauls and repainting completed at McKees Rocks after the Penn Central merger.

This car project utilizes Accurail's **H.O. Scale 5700 series 50' Welded-Side Single Door Boxcar** with appropriate Penn Central "Deep Water Green" paint and graphics. Kits include Accurail 100-Ton Rolling-Bearing Trucks and Accu-Mate Couplers. Three different road numbers are available.

Delivery is expected in August, 2011 and orders are being accepted now. Three car numbers are available: #7124, Built 1-61, #7387, Built 9-63, #7458, Built 10-63.

Prices: \$18.98 per car or a three car set for \$55.00. Shipping (USPS Priority Mail): \$5.50 for one car or \$7.50 for two to three cars.

Project Car	Price	Quantity	Amount
Individual Car Kits (Car Number Requested)	\$18.98		
Set of Three Cars	\$55.00		
Subtotal
